Asthma Awareness:

our school recognises that students diagnosed with asthma need to be supported. We need to know what can trigger it in individual students so that we can work with you to provide support and treatment if required. We do our very best to reduce asthma triggers in our immediate environment where possible. Please make sure that your child's ASTHMA CARE PLAN is kept up-to-date and that the information required for the Student Health Care Support Plan is current if your child has asthma. It is excellent for parents to encourage their child to learn how to manage their asthma including recognising triggers.

<u>Sshhhhhh!</u> Mothers' Day stall coming up...... Keep safe Moi
