OUR COMMUNITY IS COMMITTED TO LEARNING, GROWING and ACHIEVING TOGETHER.

We are incredibly proud of the 8 students who recently represented our school at the Division Cross Country. Competing at this level is a fantastic achievement and reflects the dedication and determination shown by each student. Congratulations to all students who participated, and a special congratulations to one of our students who has now progressed through to the Regional Championships. We wish them the very best of luck in the next stage of competition.

We are also excited to share that the school website has recently been updated. Families are now able to book school tours directly through the website, making the process easier and more convenient for prospective and current families wishing to explore our school.

We encourage families to share this with friends and members of the community who may be interested in seeing our wonderful school in action.

Over the past few weeks, students have been completing the Attitudes to School Survey (AtoSS). This survey provides students with an important opportunity to give feedback about their experiences at school, including teaching and learning, wellbeing, safety and connectedness.

The preliminary data from the survey is extremely encouraging, with a number of areas showing significant improvement. Managing Bullying has seen an outstanding increase from 76% to 99% positive endorsement. This is a significant result and demonstrates the positive impact of the strategies and supports that have been implemented across the school.

These results reflect the collective efforts of our staff and students in continuing to build a learning environment where every child feels valued and connected.

We are incredibly proud of these improvements and look forward to continuing this positive work throughout the year.

Finally, as a part of our community, please follow our Facebook page at Fairhills Primary School | Melbourne VIC | Facebook and our Instagram page at fairhills.ps

Junior News

Junior students recently came together to participate in National Simultaneous Storytime, enjoying the opportunity to share a wonderful story and celebrate the joy of reading as a community.

In the classroom, students have been exploring patterns in Mathematics, identifying, creating and extending a variety of number and visual patterns. They have also begun learning how to write opinion pieces, developing their ability to share their thoughts and support them with reasons.

Prep students have enjoyed spending time with their buddies, working together to create self-portraits and build positive relationships across the school. It has been a busy and engaging few weeks filled with learning, creativity and collaboration.
